How does it work?

A lifetime mortgage is a loan secured against your home. Equity release will reduce the value of your estate and may affect your entitlement to means-tested benefits.

Inheritance protection

You can protect a percentage of your home's future value as an inheritance for loved ones, as long as the maximum loan available isn't taken – see table for details.

For example, only 60% of the loan offered might be required, so the percentage of the unused loan (40% in this example) is the percentage of your home's future value which is guaranteed for loved ones when the plan comes to an end.

This feature is included automatically and at no extra cost, should the maximum loan available not be taken.

Partial Repayments

You can choose to make repayments of up to 10% of the initial loan amount each year, starting from the day the loan completes, without incurring any early repayment charges.

There is no limit to the amount of repayments that can be made per year, but each payment must be a minimum of £50.

Repayments made outside of these conditions may incur early repayment charges.

Downsizing protection

Moving to a smaller home in future may be necessary due to a decline in health, or difficulty in maintaining the home. If your new home meets our lending criteria at the time, the loan can simply port to your new home.

However, if your new home does not meet our lending criteria at the time, the loan can be repaid in full without incurring any early repayment charges, as long as the move occurs after a minimum of 5 years from the start date of your loan.

Fixed early repayment charges

If any early repayment charges are applicable, they will always be a known cost – see table for details. This could be if the loan is repaid in full within the first 10 years of the loan completing, or partial repayments greater than 10% of the initial loan are made in each 12 month period.

Should you proceed with more2life, any charges which may be applicable, will be outlined in your Key Facts Illustration and Offer documentation.

Exemption from early repayment charges on death/admission into long-term care of a partner

In joint cases, the remaining borrower can repay the loan in full without incurring any early repayment charges within a period of 3 years of the death or admission into long-term care of the first borrower.
