Our approach to meeting the Products & Services Outcome and Price & Value Outcome – Information for distributors of the Product

This summary document is being provided to you to fulfil our responsibilities under:

- **PRIN 2A.4.15R**
- **PRIN 2A.3.12 R (2)**

It is designed to support you to comply with your responsibilities under:

- **PRIN 2A.3.16 R**
- **PRIN 2A.4.16 R**

Please note that you are ultimately responsible for meeting your obligations under 'The Consumer Duty'.

1. Summary of our assessment

We have assessed that:

- Our Tailored Lifetime Interest Reward product range continues to meet the needs, characteristics, and objectives of customers in the identified target market.
- The intended distribution strategy remains appropriate for the target market.
- The Product provides fair value to customers in the target market (i.e. the total benefits are proportionate to total costs).

2. Product characteristics & benefits

The products are designed to meet the needs of the target group, namely the borrowing requirements of UK homeowners aged between 55 and 85 (depending on plan) as outlined in Section 3 below. The product features and criteria are designed to support these needs.

Drawdown plans are designed for customers who require a cash facility to drawdown one or a series of lump sum payments following their initial release.

The interest rate is fixed for the duration that payments are made. If payments stop the interest rate discount will be removed in full, including any discount on any further lending, where applicable. The interest rate will increase to the non-discounted rate and remain fixed for the life of the loan. Drawdowns are subject to the prevailing, fixed interest rate at the time, which may be higher or lower than the original interest rate.

Customers who choose to pay 25.01% or more of the monthly interest amount can benefit from a rate discount for the duration that payments are made. If monthly interest payments are still being made towards the initial advance, monthly interest payments can also be made on any subsequent withdrawal from the cash facility in return for receiving an interest rate discount on that withdrawal, however, if the customer stops making interest payments on any advance, the applicable interest rate discount will be lost across all advances.

Customers can stop making payments at any time, however once stopped, they are unable to restart and the discount will be removed across all advances. Customers can request one payment holiday of up to 3 consecutive months in each 12 month period providing we have a months notice. If the customer misses 3 payments within a 12 month period, the lifetime mortgage will switch to a full roll up of interest basis and the discount will be removed in full, including on any further lending, where applicable.

Customers not making monthly interest payments can repay up to 10% of the initial loan amount in each 12 month period from the origination date with no early repayment charges. (min £50 per payment and max 12 payments).

Early repayment charges are fixed and apply if the loan is repaid in full within the first 15 years of the loan completing, or if the customer is no longer making monthly interest payments and partial repayments greater than 10% of the initial loan are made in one year, or if any partial repayment is made whilst the customer is still making monthly interest payments.

If the customer makes a withdrawal from their cash facility and chooses not to make additional monthly interest payments on that drawdown, they are able to repay up to 10% of the loan amount in each 12 month period from the origination date with no early repayment charges (min £50 per payment and max 12 payments).

Allows customers to move home and port the loan to their new property if their new home meets the lending criteria at the time.

In joint cases, the remaining borrower can repay the loan in full without incurring any early repayment charges within a period of 3 years of the death or admission into long-term care of the first borrower.

The product has a no negative equity guarantee meaning under normal circumstances the amount owed will not be more than the property is worth when it is sold.

The mortgage offer is valid for a period of 70 days from the date of issuance. If the case does not complete within the initial 70-day offer period, a new offer may be produced based on the prevailing terms and conditions at the time of issue of the new offer.

Customers may be eligible for a Further advance over and above the initial cash facility if the product is still available for new lending. Further advances are not available for the first 6 months after product launch and are not guaranteed. Further advances are subject to the prevailing fixed interest rate at the time, which may be higher or lower than the original interest rate.

Full eligibility criteria can be accessed on our intermediary website via www.more2life.co.uk and clicking the 'Product' tab to select the appropriate product page.

3. Target market assessment and distribution strategy

This target market assessment matrix segments the target customers for the Product, recognising their different needs to enable you to tailor the services you provide when you distribute the Product.

Customer Circumstances	Distribution Strategy	Customer needs and objectives
Those wanting to use the equity in their home to meet financial objectives/aspirations	Our Tailored range is available to: <ul style="list-style-type: none"> FCA authorised qualified equity release advisers registered with more2life The product range is available to source via industry sourcing platforms for example Air Sourcing, Iress and Advise Wise Advisers are expected to conduct a level of affordability assessment to assess the viability of committed payments against the full facility at the point of the initial advance, or no further discounts will apply 	<p>This would include:</p> <ol style="list-style-type: none"> Customers who are unable to commit to mandatory regular repayments but may have the ability to make optional repayments towards the interest in order to receive a lower interest rate for the duration that payments are made Customers who want to reduce their monthly outgoings by paying off an existing mortgage Customers who want to extend existing mortgage debt into retirement and the flexibility to decide if, how and when they make mortgage repayments Customers who want to boost their standard of living to deliver a more comfortable retirement Customers who want their family to benefit from some of their estate now rather than passing it on after they die Customers who want to upgrade and improve their home or garden to make old age more comfortable Customers who want to fund additional help in older age Customers who have explored alternative forms of borrowing and do not want to downsize
Those needing to use the equity in their home to help solve financial challenges		<p>This would include:</p> <ol style="list-style-type: none"> Customers who are no longer able to continue to fully service their existing mortgage or debt, but are able to afford some level of payments in order to receive a lower interest rate for the duration that payments are made Customers who have family who are struggling financially and need support Customers who are struggling to manage in their home and need to make adaptations to the layout and/or facilities Customers whose health is declining and need help with everyday care and acts of living Customers who have explored alternative forms of borrowing and do not want to downsize

3. Target market assessment and distribution strategy (continued)

All customers must fully understand:

- The cost of the borrowing, the level of monthly repayments to be made and the impact of compound interest over time.
- A lifetime mortgage is not for short term borrowing needs.
- The existence of early repayment charges.
- The interest rate is fixed for the duration of the loan providing all payments are made. If payments stop the rate discount will be removed in full, including on any further lending, where applicable. The interest rate will then increase to the non-discounted rate and remain fixed for the life of the loan.
- The risks and limitations associated with the product including the removal of the rate discount in the event that a contractual payment is missed 3 times in a 12 month period and if the customer stops making interest payments on any advance, the applicable interest rate discount will be lost across all advances.
- Potential alternative options - including downsizing.

The Product is not designed for customers who:

- Are aged under 55 or are over 85 (depending on plan) years.
- Do not own their own home.
- Are not a UK citizen or their home in the UK is not their main residence.
- Have a property worth less than £70,000 (£100,000 on Lifetime C8 and Enhanced).
- Have a borrowing requirement of less than £10,000.
- Foresee no requirement for future borrowing.
- Are unable or unwilling to repay any existing debt secured against their home.
- Can access and afford alternative borrowing solutions with a lower cost of borrowing.
- Want to use the funds for gambling, foreign property investment, short-term borrowing needs, investment purposes, business purposes, debt consolidation where the equity release cost of borrowing is not appropriate and, in certain circumstances, those at younger ages looking to use equity release for ad-hoc discretionary spending.
- Are looking to raise funds in another form from an initial lump sum or ad-hoc drawdown, such as a regular income stream or a line of credit.

4. Customers with characteristics of vulnerability

The Product is designed for UK homeowners aged between 55 and 85 (depending on plan), which is likely to include customers with characteristics of vulnerability or who will experience vulnerability over time.

more2life recognises that given the profile of its customer base and target market, many customers have the potential to become vulnerable over the lifetime of their product, through changes to both their personal or financial circumstances. The types of customer vulnerabilities within the target market include:

- Customers with illnesses or disabilities that may affect their decision making or mental stability.
- Customers who have been or may be the target of a financial scam or other type of fraud.
- Customers making decisions based on current existing income or debt issues.
- Where there are concerns that a customer's decision making is being influenced unduly by a partner, family member or beneficiary, or where there is inappropriate involvement from a third party.

more2life have an established Vulnerable Customer Policy which outlines our approach to delivering good outcomes for customers who the firm understands, or reasonably suspects to be, particularly vulnerable and the measures that should be taken to ensure that the appropriate outcomes for these customers are achieved. The Vulnerable Customer policy includes:

- Having appropriate training, policies and supporting guidance in place to identify consumers in vulnerable circumstances and to provide flexible support.
- Adopting policies and processes that ensure that consumers in vulnerable circumstances are dealt with in a sensitive and flexible way, including through the provision of solutions tailored to individual customer circumstances.
- Appointing Consumer Vulnerability Champions across the business to provide high levels of support to our customers.
- Considering potential customer vulnerability throughout the customer journey, including at the outset in product development, right through to servicing and redemption.

Lifetime mortgages are complex products and therefore Intermediaries must ensure they identify and support customers with vulnerability indicators, including to ensure all customers fully understand the product, its terms and limitations.

Please contact us if you need any further information about how we support the needs of all our customers in relation to the Product.

5. Our assessment of value

We want to make sure our products meet the needs of our customers, deliver good outcomes and provide fair value.

To do this, we have developed a comprehensive and robust fair value assessment framework. This framework considers a range of criteria, including:

- The costs of developing, distributing, and maintaining the product and ongoing services
- The price paid by customers
- The terms and features of the product
- The service and benefits delivered to customers
- The needs of our Target Market, including those with characteristics of vulnerability; and
- Our distribution strategy

5. Our assessment of value (continued)

We use this framework to assess all of our products on a regular basis. This helps us to ensure that our products continue to provide fair value.

Our fair value assessment includes a wide range of factors and has concluded as follows:

Benefits and features	<ul style="list-style-type: none">• The features of the product are aligned to the needs of the Target Market.• The products provide clear benefits and flexibility, and are competitive.• Customers are able to utilise the features of the products as expected.
Operating Costs, Interest Rates and Fees	<ul style="list-style-type: none">• The interest rates offered are commensurate to the benefits, features and utility associated with the product and our profits are not excessive.• Our tariff of charges is based on the costs incurred in operating the services.• Our interest rates are regularly reviewed, benchmarked and competitive and customers are aware they can make repayments to reduce the impact of compound interest should they choose to do so.
Distribution arrangements	<ul style="list-style-type: none">• The product is being distributed in accordance with our distribution strategy, which remains appropriate.• The average advice fees levied by distributors do not indicate an adverse impact on the fair value of the product, however distributors will be required to assess this point based on their own specific advice fees and charges.
Non-Monetary Costs	<ul style="list-style-type: none">• No customer data is monetised and we do not generate revenue through marketing of additional products or services.• We regularly monitor our service levels, gather customer feedback, and objectively handle complaints, taking action to improve our processes where appropriate.

We are committed to making sure our products continue to meet the changing needs of the Target Market and deliver fair value.

As part of this commitment, we will conduct fair value assessments regularly, and review and make enhancements to our products, their associated costs, and supporting processes as appropriate.

Any changes to this assessment will be communicated accordingly.
