## How does it work?

We offer your clients a rate discount based on the percentage of interest served and the committed term to making monthly interest repayments. The longer the term and the higher percentage of interest served, the bigger rate discount your client can enjoy.

## How much could my client save?

## **What happens if my client misses a repayment?**

We understand that life can be unpredictable, which is why we offer the flexibility for your client to miss payments valued up to 3 times the monthly amount without losing the rate discount during their agreed payment term.

To maintain the discount for the duration of their lifetime mortgage, any shortfalls valued up to 3 monthly payments must be made up.

If the payment shortfall goes over the value of 3 monthly payments, the discount will automatically be removed, and the product will revert to the non-discounted rate that would have applied at the point of completion.
